

NovaGuard Innovation in Every Layer, Protection in Every Sheet!
Engineered for strength, built to last

ABOUT US

NovaGuard Polyplast is a trusted manufacturer of PP Bubble Guard Polymer Sheets, designed for reliable protection of floors, furniture, glass, ceilings, and more. With 15+ years of industry experience, we offer durable and innovative surface protection solutions.

Our multi-layered sheets are engineered for strength, flexibility, and long-lasting performance, widely used in construction, interiors, packaging, and industrial applications. Backed by advanced technology and strict quality control, every product meets global standards while supporting eco-friendly practices.

At NovaGuard, we foster an innovative and inclusive work culture where quality, creativity, and customer satisfaction drive our mission.

"NovaGuard Innovation in every layer, Protection in every sheet! Engineered for strength, built to last."

Why Choose NovaGuard

At NovaGuard Polyplast, our key strengths lie in our fully in-house manufacturing setup, which ensures strict quality control and timely production. We offer complete customization support to cater to the unique needs of every client, whether it's size, thickness, or application.

Our eco-friendly production practices reflect our commitment to sustainability, using recyclable materials and green processes. With a strong logistics network, we proudly provide PAN India delivery, ensuring our products reach clients across the country without delays. Backed by a skilled and experienced team, we consistently deliver innovative and reliable protection solutions that exceed expectations.

OUR PRODUCTS

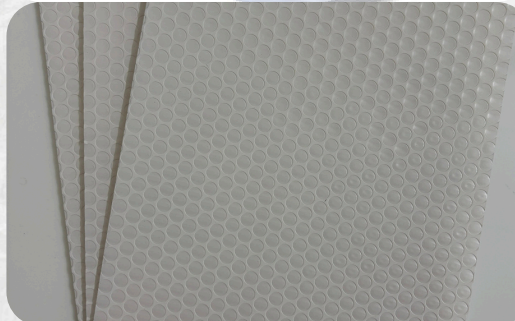

NovaGuard Innovation in Every Layer, Protection in Every Sheet!
Engineered for strength, built to last

Application✦

- Floor Protection
- Furniture and Glass Protection
- Easy to Fix
- Light Weight
- Water and Dust Proof
- Automobile Part Packaging
- Fully Recycle
- Wall and Roof Insulation
- Multiple time Reusable
- Shock Proof
- Fragile Item Wrapping
- Laptop, Mobile & Gadget Wrapping
- Cabin Insulation

PP BUBBLE GUARD SHEET

PP Bubble Guard Features

Multi-Layered Strength

- Engineered with a unique 3-layer structure for enhanced durability.

Lightweight Yet Rigid

- Easy to handle and install without compromising strength.

Waterproof & Moisture-Resistant

- Ideal for both indoor and outdoor use.

Shock & Impact Resistant

- Protects surfaces from scratches, dents, and damage.

Reusable & Recyclable

- Eco-friendly and cost-effective for repeated use.

3 mm	1220mm	1830mm - AS Req	225GSM- 400GSM
4 mm	1220mm	1830mm - AS Req	400GSM- 500GSM
5 mm	1220mm	1830mm - AS Req	500GSM- 700GSM

Air Bubble Sheet

Nova Guard Air Bubble Sheet is a lightweight and flexible packaging material designed to provide excellent cushioning and protection during transit. It is made from a 2-layer structure of LDPE (Low-Density Polyethylene), where one layer is flat and the other contains uniformly spaced air-filled bubbles. These bubbles act as shock absorbers, effectively safeguarding delicate items against impact, vibration, and scratches. Ideal for packaging, wrapping, and transporting electronics, glassware, furniture, and other fragile products, air bubble sheets are a reliable and cost-effective solution for both industrial and domestic use.
